

FREE COVID-19 TESTING

FREE FLU VACCINE (for eligible whānau)

Kei aku Rangatira, tēnā koutou

To protect whānau and communities in the Hauraki rohe and to extend the reach of our Thames Community Based Assessment Centre (CBAC), we are taking our CBAC and Flu clinics on the road.

In collaboration with the Hauraki Māori Trust Board, the the Hauraki PHO, the Waikato District Health Board, and Te Korowai Hauora o Hauraki we will be taking a mobile team out to areas where COVID testing has been lower – particularly in our rural communities.

The purpose of the testing is for monitoring and surveillance in the Māori population – not because these areas have had an outbreak or for contact tracing purposes. This means the testing is open to anyone who identifies as Māori (all tamariki will be assessed). The test involves taking a nasal swab, it is a quick test that may feel a little uncomfortable but is not painful.

A second team will be on site to administer the influenza vaccination to whānau who are eligible including whānau:

- Over the age of 65 years
- Under 65yrs with an underlying chronic health condition such as diabetes, respiratory or heart condition
- Hāpu māmā
- Front line essential workers

You do not need to be enrolled with Te Korowai Hauora o Hauraki GP practices we just want to make sure everyone who can have the flu vaccination has had one before we get to Alert Level 2. The vaccine does not cover COVID-19 but does offer protection from other influenza viruses. For whānau with other health issues or children, please contact your local clinic.

	Te Ra	Te Wā	Te Wāhi
Haratua/ May	Mon to Fri	8.30 to 4.30	Te Korowai Hauora o Hauraki - 210 Richmond St, Thames
